

The Indian Residential School Project: Bringing our Learning into the Light

A collaborative engagement workshop with Uyyumun Consulting hosted by ITHA

The Inter-Tribal Health Authority is hosting learning and knowledge generation experiences that focus on:

- Historic and Ongoing Colonization
- Intergenerational Trauma
- Intergenerational Wisdom
- Pathways Forward

This important work is in response to community requests to broaden the conversations related to residential schools, trauma, and healing.

This event is open to:

- Residential school survivors and their families
- Chief & Council, First Nations Community Service Providers: community health nurses, health directors, youth workers, alcohol and drug counsellors, interagency liaisons
- Those of us who have experienced intergenerational trauma
